

CORNER PROTECTOR INSTRUCTION MANUAL

Please read the instructions carefully and keep them for later use.

Failure to follow the instructions can impair the safety function.

WARNINGS!

The corner protector is not a toy. Keep it out of the reach of children.

This item is an aid for protecting your child and does not replace the need for supervision.

Use the item only for its intended purpose.

If you find defects, do not use the item.

Ensure the corner protector is securely attached by checking its fit regularly.

This item can offer protection for children up to an age of approximately 24 months. Do not underestimate your child's abilities and developmental leaps.

Do not use the product on objects with weak or easily removable surfaces.

Hoffenbach assumes no liability if the surface could be damaged and will not replace the product in the event of damage.

ASSEMBLY

To minimize the risk of injury, assembling at both the top and bottom edges of the table is recommended.

Clean the piece of furniture of dirt, dust, etc., and apply the corner protector to the designated spot, pressing firmly for 60 seconds. We recommend letting the corner protector rest for 24h.

REMOVING THE CORNER PROTECTOR

Grasp both ends of the corner protector and slowly, steadily pull both ends towards the center. If adhesive residues remain on wooden surfaces, lightly apply vegetable oil with your fingertip in circular motions to dissolve the residue, then clean the area with a paper towel. If residues remain, repeat the process. On other surfaces such as glass/metal, you can also use alcohol to remove the residues. However, test the surface beforehand to ensure that the alcohol does not damage it. We recommend not using alcohol on wooden surfaces.

CARE

Wipe the surface with a damp cloth. Do not use soap, alcohol, or other cleaning agents. Then wipe again with a dry cloth. Keep the protector dry and oil-free.
